PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors submitted the Ms "Morphometry and physiological quality of Moringa oleifera seeds in the function of their fruit position." for possible publication at the Journal. I review the Ms. I suggest for publication As written. The research are well developed, well written, interesting results. May the authors suggest at the perspective whatst should be the next investigation. Since salt strres will helpful in producing metabolites for medicine and industrial aplication vs seeds of the medial and basal regions that presented greater germination and vigor than those of the apical part, will be useful for these propositos.	
Minor REVISION comments		
Optional/General comments
