PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The manuscript is original and its data will greatly contribute to the adoption of glyphosate for weed management in yam crop in Nigeria. Statistical procedures are correct and the manuscript was discussed according to the data. Revisions in Grammar would be necessary, but I think this task will be accomplished by the Journal staff after manuscript approval. Overall, the manuscript should be published after minor revisions.	
<u>Optional/General</u> comments
