General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Tables should be inserted in the middle of the results and discussions with a title but not under the conclusions for easy reference	Correction effected
<u>Optional/General</u> comments	The paper is well written with the use of appropriate model but the concluding aspect is too small so I will suggest the author will write more about the concluding aspect by comparing it the study of other people in the same area of study. Generally, the paper should be accepted	Correction effected
