FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
- The equations of the figures are in the mathematical formula and must be written in the statistical formula: Example: Fig. 1 a $y = 12,698x^2 + 26,905x + 13,886$ $R^2 = 0,9866$ Change to: $y = 13.886 + 26.905x + 12.698x^2$ $R^2 = 0.9866$ Example: Fig. 1 d $y = 0.7935 + 0.614x$ $R^2 = 0.9673$ Use a period instead of a comma. In Portuguese comma is used, but in English one must use point. Do this in all equations. - Review the name "Magazine", again the authors have not traded. - I will write in Portuguese to be clearer to the authors: A palavra "magazine" é utilizada para revistas que se compra em bancas de jornais, etc. Revista que se publica artigos é "journal". Acredito que por ser traduzido do português para o inglês isso deve ter acontecido. Muitas revistas brasileiras que foram citadas pelos autores não possuem tradução do nome nas suas páginas. Então tomar muito cuidado ao tentar traduzir os títulos, principalmente se atentar ao uso de tradutores mecânicos. Reveja isso. - Review the translation	We have made all suggested changes. Regarding the translation of the word "Revista", we have changed to Journal Árvore, Journal CERES and Journal Agroenvironmental as suggested, but we honestly believe that in these specific cases there should be no translation, as this is the proper name of the journal. For example, we have seen that in some english texts, REVISTA ÁRVORE is quoted as journal Revista Árvore, suggesting that there is no translation for the title. However, as a form of standardization and by willingly accepting the reviewer's suggestions, we changed to Journal in all cases. We corrected all the translations of the references and put the correct title. We have reviewed and improved the translation of the entire text of the article.
