

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_45942
Title of the Manuscript:	Sample size and Pearson's correlation on characters of crambe and sunflower
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	2. 2 and 2.3 Where did you inspire for the Methods? From literature? Please indicate an author. Good statistical analysis Interesting result, but poorest discussion! It must be documented Are you an author for this equation? $n = \frac{t_{\alpha/2}^2 \cdot s^2}{(estimation\ of\ error)^2}$	1. The method was proposed for Bussab and Morettin (Bussab WO; Morettin PA, Basic statistics, 5. Ed. São Paulo: Saraiva, 2004), in which they evaluated means of the test t to the sample size. The equation is authored is Bussab and Morettin (2004) and Spiegel, Schiller, Srinivasan (2004). 2. In the discussion were reworked trying to get a better description of the results observed. 3. The sample size is obtained by this equation, proposed by (BUSSAB; MORETTIN, 2004; SPIEGEL et al., 2004). 4. The results and discussion have been improved!
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	There are no ethical issues in this manuscript!
