PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript requires significant improvements in writing and spelling. In addition, it has serious deficiencies in editing and formatting the information (data and tables).	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	All the information related to the genetic parameters, which impact on the improvement of dairy cattle will always be of importance anywhere of the world. However, it is recommended to review the objectives of the same, to establish a methodology and finally, to describe the results in a simple and practical way.
