

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_45047
Title of the Manuscript:	IN VITRO ANTIOXIDANT POTENCY AND ANTIFUNGAL EFFICIENCY OF FOUR LOCAL TERMINALIA SPECIES AGAINST FUSARIUM STRAINS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is generally poorly written. The methodology is unclear and non-reproducible. The methodology may nullify the validity of the results as there are several research design and technical errors detected. The methodology must be completely rewritten. The Result and discussion section is unclear and lack convincing or logical scientific justifications for the results obtained. There are too many vocabulary errors. This section should also be majorly modified. I will recommend that the paper be not accepted due to a fundamental research design which may influence a false positive result. However, if the authors are able to respond to all the comments and queries on the paper, I would be willing to review the revised version.	
Minor REVISION comments		
Optional/General comments
