SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Introduction: Well presented Abstract: Good Objectives: The action verb used under the general objective is not corrected " it sound to indentify the extent" how can you indentify the extent which need statistical inferential! But authors used only descriptive measures which are not true measures on the extent. RESULTS Table 4, present evidence of contribution of Business Value on social responsibility based on mean value 4.8 which are above the mean value of 3. This need to be supported with literatures justifying the mean value. R-Square of 14% is very low to justify the fitness of the model. Review the data for normalization	Corrected Corrected but it is important to note that descriptive statistics are not supported with literature because the results from research questions cannot be generalized Corrected
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Generally, the manuscript is good
