

SDI Review Form 1.6

Journal Name:	Journal of Economics, Management and Trade
Manuscript Number:	Ms_JEMT_38479
Title of the Manuscript:	Foreign capital and poverty reduction in West Africa
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1- Authors do not provide theoretical motivation for the equations 1-3. Specially the equations have a vector of ODA, FDI and DELT and effect all the variables but authors do not provide sufficient information for them. 2- Equation 5 should be derived in the appendix. 3- Conclusion section is too long and should be shortened.	1- We had removed the party concerning the review of the literature, to avoid lengthening the paper. It is indeed necessary that we integrate this theoretical review to better explain our system of equations. So, we integrate the review of the literature in the new section N ° 2. In addition, other explanations of the set of equations can be found in the "results and interpretations" section. 2- We rewrote equations (5) and (6) and put the demonstrations and calculations in Appendix 4. 3- The conclusion is shortened. It goes from 627 words to 484 words
Minor REVISION comments		
Optional/General comments
