PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Basically this paper is just a literature review. I would suggest a more comprehensive investigation should be involved in order to see a clear view of relationship between a Dollar-based Economy on the Hospitality Industry. The impact of this relationship can be tested by using either primary or secondary data for a case in any country. So whatever the finding from the study can be supported by any literature review in which this paper basically discusses.	Disagreed with the reviewer. The paper only explored and situated the study within a broader context of related 6 researches in relation to impact of dollar-based economy on the hospitality sector. Thus, doesn't call for analysis in this case.
