PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Maternal Mortality is one of the indices to see the human development of a country. Nigeria shows a burden index of Maternal Mortality rate. Even worse than other developing countries without mention developed countries. This commentary show us the way to improve, governments need to invest in health with health stable polices, independent of political swings. The key point here is Health is Wealth. Call to action in necessary more than ever. Despite this black reality, the commentary article is a good point to start again for adequate health care services. Never give up for dream with a better quality life of women	Thank you.
Minor REVISION comments	Sometimes our countries do not want to show and hide the statistical truth	Thank you.
Optional/General comments	Good commentary that one more time take us for a deep reflection	Thank you. We have revised it further and believe the manuscript reads better now. Many thanks for your support.
