SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The work is an interesting contribution, however needs some improvements, namely the following: - The work presentation should be improved. In some cases lack spaces among the words, as for example in the first line of the abstract "...andtechno-economic...". - I suggest significantly improvements in the references support for some sentences. For example "Nigerian S&T Policy was recently reviewed and designated Science, Technology and Innovation (STI) Policy." needs a reference support. - I suggest the presentation of some statistical data (in figures and tables) in the section 7, to better reading.	
<u>Optional/General</u> comments
