PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	There are grammatical issues with the entire paper and this should be acted upon before publication. Examples include: Line 29, should read developed and developing countries..... Correct grammatical error in line 31. Support the literature with your reflections and not the other way round under the literature review. Line 92 is confusing. Line 110 is confusing, clarify. Line 147 has grammatical challenge. Line 244 is also confusing. Line 270 is also problematic. It is important that before a Table appears, there will be a line or two write up to introduce it to the reader before. Check line 311 and line 312 for clarity. Correct grammatical error in 337. Line 348 is problematic. Candidate should tighten the explanatory component of the study as the brief conclusion written is insufficient in exhausting the reasons behind the figures. Secondly, the wider implications of the study is missing. The candidate should be able to appropriately position the paper in the wider or broader literature	
<u>Minor</u> REVISION comments	Line 267 should be beneath the Table	
<u>Optional/General</u> comments	NA
