Compulsory REVISION comments		
Minor REVISION comments	Good day. This is an interesting article which discusses the process and importance of social dialog method in a society. However, several suggestions and questions were provided for further clarification. In doing so, the quality of the article can be enhanced. Below is the details: 1. The problem statement is clear but I felt that the topic needs more current literature for supporting the argument. 2. Please check Line 47, I found a spelling/error. 3. Line 57-65 please make it simple and easy to understand. By having long sentences it might mislead the readers about the content. 4. It would be more useful if any sociological theory about the topic employ by the author(s). 5. Please justify what is the current status of social dialog and democratic process in UKRAINE. 6. Overall, it is a good article.
