PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper needs to be revised. The different subheadings of the paper do not flow smoothly. For example under no 2 the author is mainly defining entrepreneurship and what an entrepreneur is; there is very little on the diversification of the Nigerian Economy. No 3 should have been at the beginning. No 4 has a list of those factors, but a reader would want to know who said what among those authors cited above. No 5 is again on literature review on entrepreneurship and yet there is very little literature review there. The author is not citing sources of information. The paper has no methodology section and no results section. No 6 looks like the author is starting on a different paper.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
