SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	Overall Article is EXCELLENT and expressing good theme that the need of Socialism and Society Democracy. With best of my knowledge, some general points find out and note down below. - Formulations of research Objectives are not being specified. - This is only conceptual review study between capitalist economy and Physical Labour through Marks theory applied. Because, Author own contribution is not much more in analytical tools. - Article is framed as universal manner. Hence, it is very easy to understand the basic theme of article and concept explanation However Sentence construction is not relevant and not flowing information step by step. - In everywhere, some conflicts happening between Capitalists and Human Labour force. They are not work together for the sake of society benefits. The capitalists always think that "we are investing and facing Risk and Labour working under us" In other side Labour also thinking about that we are the important source of capitalists profits. But in Practice, both arguments are not correct. Both are work together for their benefits on mutual co-operation, then only Industry sector will develop and more opportunities will get both of them. - Here author concentrated this in his comparative study of Capitalists and Socialists economy and recognised both are required like two sides of one coin. It is a good and excellent but at the same time; author ignored consequences happen if these issues are overlapping in society. - Practically, we are seeing, what consequences happening in society if these issues are more concentrated in human life. - Finally, this article is sending good message to society to act as "one for all and all for one" cooperative principle and need for work together for social benefits
