PART 1:

Journal Name:	Journal of Economics, Management and Trade
Manuscript Number:	Ms_JEMT_44943
Title of the Manuscript:	ARE THE DETERMINANTS OF IMPORTS SIMILAR ACROSS MANUFACTURED PRODUCTS? EVIDENCE FROM NIGERIA
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The author's response is clearly unsatisfactory. In fact, the author's answers can be said that in the first part he did not formulate a brief answer to the question put by the reviewer, which would greatly clarify the situation. From the answers in the second and third parts, it is clear that the line numbering does not match. However, it can be understood that in the second part the author refers to other researchers, but does not justify his choice, without subjecting him to any critical assessment. The use of certain statistics specified in the review would also help to better formulate the article. In this form, you cannot print an article before correcting these shortcomings
