

**SDI Review Form 1.6**

|                          |                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Physical Science International Journal</a>                                           |
| Manuscript Number:       | Ms_PSIJ_42429                                                                                    |
| Title of the Manuscript: | OPTICAL TIME DOMAIN REFLECTOMETER ASSESSMENT OF ATTENUATION IN FIBER OPTICS COMMUNICATION SYSTEM |
| Type of the Article      |                                                                                                  |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                            | Reviewer's comment                                 | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | No specific method is given to measure Attenuation | The method was specified: OTDR (Optical Time Domain Reflectometer) testing                                                                                                    |
| <b><u>Minor</u></b> REVISION comments      |                                                    |                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    | Technical content is less.                         |                                                                                                                                                                               |
