

SDI Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_41968
Title of the Manuscript:	PATH LOSS MODELING FOR NEXT GENERATION WIRELESS NETWORK USING FUZZY LOGIC - SPLINE INTERPOLATION TECHNIQUE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Between line 216 and 217 there is a Figure that is not numbered and given a title (modified Path Loss and Spline Interpolation Line).	
Minor REVISION comments	Fig. 1, Fig. 4 and Fig. 6: the title of the y-axis is not readable. Words are stocked-up together. Consider separating them and having <i>db</i> in the right parenthesis as (db) Line 160,163,170 and 174: replace Where with where	
Optional/General comments	In Fig. 1, Figure between line 216 and 217 and Fig. 5, the measured Path Loss between the distance 3500m and 4000m has a spike (sudden rise up to 165db). Explaining this would enrich your discussion of results.
