### **SDI Review Form 1.6**

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_45457
Title of the Manuscript:	Formulation of lubricant from calabash seed oil
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of 'lack of Novelty', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

## **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
Minor REVISION comments	You have done some the physicochemical properties about CSO lubricant, but I think your work lacks of the oxidation stability and lubrication properities. The environmental temperature of engine is very high, so the oil is easily oxidized. And the parts of engine can cause frictional wear during runtime. So I suggest you do the oxidation stability and lubrication properities of CSO lubricant.	
Optional/General comments		

# PART 2:

	Reviewer's comment	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
