PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> The "Conceptual issues and relevant literature" section is very brief. In our opinion, this section should be expanded to include the main works on this topic/ The expert recommends in the section "the Study Area and Methods" to give socio-economic characteristics of the study area, including: sectoral structure, total population, migration dynamics, etc/ The author provides detailed geographical information about the territory where the survey was conducted. However, the author does not justify the choice of this object of study. This justification will improve the representativeness of the area. The expert has the impression that the choice of the object of study is random/ The expert recommends replacing the headings of the second column of tables 2-10 "No of Responses" with " Number of responses». 	
Minor REVISION comments	<ul style="list-style-type: none"> The author gives the results of the survey as a whole. The author can provide answers to questions by groups of respondents presented in table 1. We will be able to find out the answers to the questions of men and women, respondents of different ages, level of education and religion. 	
Optional/General comments	<ul style="list-style-type: none"> The author of the article does not cite the measures of the government of Nigeria in the sphere of reducing the negative processes of urbanization The author suggests that the government should strengthen birth control. According to the expert, this is not enough. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
