PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper is very well written and morphometry analysis is good. However, there are a few corrections that need to be made: 1. Throughout the paper kilometres is written as Km, it should be km 2. In Line 15 change 'was' to 'were' 3. In Line 70, 'brings about to' may be replaced with 'leads to' 4. In Line 91, write 'Data' in place of 'ata' 5. In Line 259 'as at when' should be 'as and when' 6. In Line 264 'REFERENCES' should be in next line.	I appreciate the level of technical attention that the reviewer has paid on the manuscript. I have effected the corrections as suggested. Thanks.
<u>Minor</u> REVISION comments	Nil.	
<u>Optional/General</u> comments	The paper is well written and analysis and explanation is good.
