FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Dear Editor, I have finished the review of the submitted paper. My opinion remains the same: "The UV-C measurements are not credible because they were obtained with an inappropriate instrument and they do not agree with theoretical predictions." Feel free to make a decision about publishing the paper. I will accept your decision. Sincerely, Branko Vukovic</p>
