

## SDI Review Form 1.6

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_41822
Title of the Manuscript:	Sedimentary structures and lithofacies found in a channel bar of Brahmaputra River in Panikhaiti, Kamrup District, Assa
Type of the Article	Original Research Article

## General guideline for Peer Review process:

This journal's peer review policy states that <u>NO</u> manuscript should be rejected only on the basis of '<u>lack of Novelty'</u>, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

# PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed highlight that part in the manu- his/her feedback here)
Compulsory REVISION comments	Research is very good in technical terms; however, the author does not contribute with a more explicit explanation as to the environmental significance and the impact on the Brahmaputra River. The author should explain more in detail the implications of the findings in the Brahmaputra River and its impact on the environment and the Kamrup District, Assam	
Minor REVISION comments	In the conclusions section it would be important to explain more about the reason for the findings and their implications for the future for the Kamrup District, Assam	
Optional/General comments	Some recommendations on findings in this research would give greater emphasis
