Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Lack of table or figure makes this manuscript boring and not concrete. In section 5.1, it would be better is some major projects the CNDP determined as well as some of their detailed effect can be listed out in a table.	
Minor REVISION comments	The benefit of the social involvement strategy is not concretely illustrated. Please choose an actual case to explain the concrete benefits by social involvement.	
Optional/General comments	This manuscript gave a review on water management and irrigation governance. The focus changing from physical solutions to social involvement is detailed illustrated. Quantities of citations and three concrete cases are used to support the point. The quality of the manuscript is "Average".
