**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Kindly mentioned authentication number of plant verification</p> <p>Kindly put some picture of anti-microbial test you performed for verification</p> <p>Discussion and conclusion is lacking. There are lot of papers of antimicrobial activity on this plant. Kindly compare your results with previous results.</p> <p>Kindly concise your abstract</p>	<p>It has been supplied</p> <p>The discussion and conclusion sections are in the write up sir.</p> <p>Relevant comparisons have been made. However, most of these papers reports antimicrobial activities of the fruit juice and seed as well as the oil extracted from them whereas, this study investigates the antimicrobial activities of crude extracts of the leaf and stem bark of the plant.</p>
