

SDI Review Form 1.6

Journal Name:	<u>Journal of Complementary and Alternative Medical Research</u>
Manuscript Number:	Ms_JOCAMR_40587
Title of the Manuscript:	Effect of methanol extract of Mangifera indica on mitochondrial membrane permeability transition pore in normal rat liver and monosodium glutamate-induced liver and uterine damage.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The abstract must be written in one section and represent a small resume about the paper approximately 250-350 words</p> <p>Need to check the format in the parenthesis</p> <p>Results and discussion need to be together in the same section</p> <p>The conclusion is too poor for a big research</p>	<p>The sample abstract given in the guideline has sub-sections like aims, methodology, results and discussion. This is the reason the abstract was written under sub-sections and not under one section. If it has to be written under one section, I can easily do it. Also, the total word count is still 295.</p> <p>The results and discussion have been put in the same section</p> <p>The conclusion has been addressed and rewritten</p>
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
