**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1) The manuscript describes the screening results of plant extracts without pharmacological details, hardly justified as a full paper.</li> <li>2) The authors should consider inclusion of further data and discussions such as dose-response, histological observation and other parameters.</li> <li>3) In the Experimental section, it says that inflammatory cytokines were measured but no such data are presented.</li> </ol> <p>The significance of the findings diminishes by using the i.p. route of administration. It is not consistent with the usual way of taking herbal medicines.</p>	CORRECTIONS MADE
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1) Mention the plant part used for each plant.</li> <li>2) Explain why one plant was extracted with water while others with ethanol?</li> <li>3) The proportions of plant extracts in making up the KEP preparation should be given, with reasons.</li> <li>4) The Result section should be expanded in text form, instead of giving only tabular form.</li> </ol>	
<b>Optional/General</b> comments	NIL
