

SDI Review Form 1.6

| | |
|--------------------------|---|
| Journal Name: | Journal of Pharmaceutical Research International |
| Manuscript Number: | Ms_JPRI_42430 |
| Title of the Manuscript: | Mechanism of Anticonvulsant Effects of Ethanol Leaf Extract and Fractions of Milicia Excelsa (Moraceae) in Mice. |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>Results indicated in the table should conform to results stated in text. In text results indicates p-values whereas results in the tables indicate Mean±SEM. All results should indicate the exact P-value as found on statistical test other than e.g result was significant at p<0.05 which is not specific.</p> <p>I have indicated minor revision but the concern MUST be addressed as I expect the authors to be having the results and would do a quick correction.</p> | |
| Minor REVISION comments | | |
| Optional/General comments | <p>The paper is well written, except the issues stated above which needs to be addressed. The dose of PTZ used was very high and so may not have conformed well to the principle of "Refinement" of procedure</p> | |
