SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	None	
Minor REVISION comments	<ol style="list-style-type: none"> 1. In the abstract, delete the highlighted 'were' 2. Also in abstract, change including to include 3. In line 205, change the word 'was' to were 4. Remove grid lines in the result tables 5. In line 340, let the citation follow the pattern you have been using 6. Change the style of the reference. 	I agree with the comments of the reviewer in this section and all the needful corrections have been adhered accordingly and highlighted in the manuscript.
Optional/General comments	The report is too long.	<p>The whole report? If so I think this could be caused by pages of literature review since it have covered to about 6 pages with 60 references.</p> <p>Reduction of page numbers can be possible by dropping number of references which we think that could distract the flow and mantic of the information intended to be addressed.</p>

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
