**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The study reviews completeness and accuracy of hospital records with emphasis on five health indicators in North Kordofan State of Sudan. The conclusion is that the records are incomplete and inaccurate. The study design, materials and methods, results and references are suitable, accurate and well presented. The study is original has novel information worthy to publish. The study will add scientific novelty to the field of international public health if published and it may be published without any further revision as it stands.
