Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Abstract The structure of the abstract lack a background. Sentences start with figures should be corrected. Result must be presented in past tense. The conclusion in abstract section does not reply to the aim of the research.</p> <p>Introduction Minor edition is needed</p> <p>Material and methods section Nothing is said about the sample size calculation; Nothing about ethical considerations here.</p> <p>Result section The results are difficult to understand Table 1 is for on respondent or the summary? No percentage is observed. It is important to show for each item, the number of T and F or their percentages. After the table the text is very poorly written. The discussions are poor. Literature, results and discussions are mixed. You should discuss your research comparing them to other similar works.</p> <p>Conclusion: Remove the reference</p> <p>References Harmonize the references.</p>	
Minor REVISION comments	There is a need to edit the text and address the above questions and comments	
Optional/General comments	The word is relevant, but not ready to be published
