SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|--|---|
| <u>Compulsory</u> REVISION comments | <p>The authors need to add additional indept information in the introduction. Include latest information. Please cite Lennox et al., 2013 Prevalence of vaginitis and vaginosis among University of Calabar female students and other relevant papers. View the comments on the manuscript and make the necessary corrections</p> <p>The methods must be reviewed it does not agree with the results. The total specimens collected were 270. One hundred and forty from infertile women and 130 from pregnant women but the result is showing 90 specimens from infertile women etc. This has affected the validity of the entire work. This has affected the results, discussion and conclusion.</p> | <ul style="list-style-type: none"> • More information has been added in the introduction. • Corrections as pointed out have been effected. • HVS and Urine specimens were collected from 90 infertile women and 45 pregnant women. This sums up to 270 specimens in all. |
| <u>Minor</u> REVISION comments | | Thank you for your constructive and kind criticisms. |
| <u>Optional/General</u> comments | | |
