

SDI Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_44851
Title of the Manuscript:	MONITORING FUNGAL BIODEGRADATION OF LOW-DENSITY POLYETHYLENE [LDPE] FROM PLASTIC WASTES DUMP SITES USING FT-IR SPECTRA
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Work is good. Correct the whole document for alignment.	
Minor REVISION comments	In materials and methods: 1 g of soil suspended in 99ml of water. Need to be corrected as 1g in 100 ml of water sample. (a suggestion: when isolation is done from soil sample, 10g (large sample size) must be suspended in 100ml of soil) Give figure legends neatly. So many usage of abbreviations, confuses the reader, make it much clearer. Correct the figure 4 according to the scientific presentation.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)

SDI Review Form 1.6

Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> No
