SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract: 1) line 15 “rest (n=4,3.5%) had low vision between < 6/18 and 6/60.” I did not understand the percentage inside the paragraphs. Rewrite. 2) Line 16 and 17: “Significant causes of low vision include optic atrophy of unknown cause, cupped discs presumably from chronic glaucoma and macular scarring.” Cupped discs presumably from glaucoma don't make sense. Rewrite. Introduction: 1) line 49: explain the CHARGE syndrome, that means the abbreviation. 2) Line 50: explain Wadenburg syndrome also. Material and Methods: 1) Written informed consent was obtained from all participants??? And the institutional review board approved all methods????	

SDI Review Form 1.6

	2) All methods adhered to the Declaration of Helsinki??? If yes, please add similar information. 3) Exclusion and inclusion criteria should be added in the methods section. 4) Which p value was set as statistically significant???? Results: 1) SD in line 83: explain the meaning: standard deviation. 2) Add gender and race if you have it. 3) Line 91: “examined with 28 eyes having one ophthalmic abnormality or the other.” In how many patients???? 4) Line 95: explain and characterize better ptosis: mild, moderate or advanced??? The same for exotropia. 5) What about study limitations? The lack of additional systemic info, the way you measured the visual acuity or IOP using Perkins etc. Please address these issues. 6) Discuss more about the clinical findings and the diseases found it in these study.
