SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Prevalence of Glaucoma is not accurate since the authors checked prevalence of ocular hypertension-see please definition of glaucoma and mention your criteria of diagnosis for glaucoma (Glaucoma is an optic neuropathy per definition). Please in methods write the statistical tests used in your statistical analysis especially the correlation between age and CCT. The results are duplicated, please choose tables or text. In conclusion-type II error means when the null hypothesis is false and you fail to reject it-please specify your null hypothesis, the power of your study (β) and what does each P value mean (all should be mentioned in methods) then specify how did you conclude the chance of type II or type I error	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
