SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	It is not desirable to calculate the prevalence of glaucoma without considering the optic nerve and visual field findings, for example, in line 10-11. Please change. I recommend you to change the word 'glaucoma' to 'ocular hypertension'. Please clarify how to correct IOP using CCT. In the discussion section, description of the quoted references are too long. Please simplify.	
<u>Minor</u> REVISION comments	Please clarify whether this study adhered to the tenets of the Declaration of Helsinki or not. Additionally, please note whether this study obtained a review of the ethics committee. Please check the abbreviations in this manuscript because of many errors. For example, the abbreviations of the title does not be needed.	
<u>Optional/General</u> comments	None.
