**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>-Which referencing method did u use? It is not arranged chronologically,(the first citation in text should be 1, subsequent 2, 3,.....)</p> <p>-In your paper you have used colour vision defects, colour vision deficiency, defective colour vision interchangeably. There's need to be consistent for clarity.</p> <p>- There's need to state the purpose of your study to conclude the introduction</p> <p><b>Aim of the study</b></p> <p>-Line 61 is vague, rephrase or delete it</p> <p>-Line 63 you may consider (i) Verify whether total colour blindness is a rare condition</p> <p><b>Sampling technique</b></p> <p>-It requires to be strengthened to come out clearly.</p>	<p>Reference numbering is in order please,</p> <p>abstract has already disambiguate between colour vision defects, and colour vision deficiency.</p> <p>That is the essence of having Aim of Study section</p> <p>I don't think there's anything vague about line 61 OK now</p> <p>Already clarified</p>
<b>Minor</b> REVISION comments	<p><b>Introduction</b></p> <p><b>Line 26-</b> instead of colour vision defective individuals, can it be individuals with defective colour vision?</p> <p><b>Line 36-</b> It will affect both eyes. What are you referring to?</p> <p><b>Line 40-</b> starting from .. Found in the macula,.....upto</p> <p><b>Line 46.</b> Let it come out more clearly, rephrase.</p> <p><b>Line 56-</b> Ishihara (2008).- cite as per journal</p>	<p>Thank you. Effected as suggested</p> <p>What is wrong about that ? I think its OK</p>

**SDI Review Form 1.6**

	<p>guidelines</p> <p><b>2.3The Sample</b> <b>Line 80-</b> fromBill Godden 80 (Lord, 2010),...this is not clear, cite correctly</p> <p><b>Results</b> -You should give a brief summary after every Table is presented.</p>	
<b><u>Optional/General</u></b> comments
