PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Please clarify the study design	
<u>Minor</u> REVISION comments	1-Please rephrase the skeleton of this review article into bacteria, viral,fungal, and others 2- Please rephrase the title. 3- Please added more figures and tables. 4- Please added more details with recent references	1. Thanks for your suggestions. As it will be difficult to restructure the above manuscript to bacteria, viral,fungal, and others, kindly consider this manuscript with the mentioned structure. It was focused to briefly describe different types of microbial keratitis, hence necessary agents like bacteria, virus are also described briefly. 2. Now the title has been changed in the revised manuscript to “Infectious keratitis: an immediate cause of concern”. 3. As now we have no good figure specifying individual infections, kindly consider the manuscript. 4. Thanks for your valuable suggestion. Now we have added some recent references in the revised manuscript.
<u>Optional/General</u> comments	Some typographical and language errors should be corrected.	The errors are now corrected..
