PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The authors are trying to state a relationship between PACG and RP and stating that it might be higher than in normal populations which they stated to be 0.07%. Please check the following studies which are only an example with much higher percentage than stated.</p> <p>"The Prevalence of Primary Angle Closure Glaucoma in Adult Asians: A Systematic Review and Meta-Analysis."</p> <p>And</p> <p>"The prevalence of primary angle closure glaucoma in European derived populations: a systematic review."</p> <p>And in the following paper it was done on over 300 patients with retinitis pigmentosa</p> <p>"Increased Risk of Acute Angle Closure in Retinitis Pigmentosa: A Population-Based Case-Control Study"</p> <p>".</p> <p>Thus making this not a case report</p>	
Minor REVISION comments		
Optional/General comments
