Manuscript Number:	Ms_OR_37497
Title of the Manuscript:	Primary angle closure as a presenting feature of Retinitis pigmentosa : A rare case report
Type of the Article	Case Report

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Introduction, first sentences need for a reference. Discussion, first sentence: reference is missing. Line 44, "van herick" must be written with capitals. Was the cataract surgery phacoemulsification and without any complication, like zonular problem? It must be added.	
Minor REVISION comments		
Optional/General comments	It is logical, well-written case report, worthy for publication after minor revision.
