PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Authors have nicely written the manuscript "Overcoming Barriers: Controlled-Release Systems as Vectors, The Posterior Segment of the Eye Approach as a Model" Manuscript is lacking in clarity and elaboration in the literature review 1. Authors have explained only about Dendrimers, microparticles and liposomes. Authors have to add section on gene based delivery to posterior segment. 2. Authors are required to add a note about the concentration of drug that reached at the destination (i.e.posterior section of eye) among all the administered Dendrimers, microparticles and liposomes	
Minor REVISION comments	NA	
Optional/General comments	NA
