

SDI Review Form 1.6

Journal Name:	Ophthalmology Research: An International Journal
Manuscript Number:	Ms_OR_40609
Title of the Manuscript:	EFFECT OF COLOUR VISION ON OCULAR DEVIATION
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The spelling of Farnsworth-Munsell test must be checked! I do not find any statistical analysis in the manuscript. The conclusions proposed by the authors cannot be achieved with the lack of the proper statistical analysis.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	In order to know what the authors proposed in the manuscript title, a correlation test between ocular deviation and the results of the Farnsworth-Munsell test is advisable .
