

**SDI Review Form 1.6**

Journal Name:	<a href="#">Ophthalmology Research: An International Journal</a>
Manuscript Number:	Ms_OR_44569
Title of the Manuscript:	DEMOGRAPHIC CHARACTERISTICS AND COMORBIDITY PROFILES IN PATIENTS WITH SENILE CATARACT
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link: (<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Please clarify the certificate approval number.	(Ethical approval number: 2018-05/50).
<b>Minor</b> REVISION comments-	1- Introduction is not sufficient. 2- Please clarify the exclusion criteria. 3- Please clarify OCT and FFA techniques in details. 4- Please added more details regarding the laboratory investigations done. 5- Please added a table including the demographic profile of the studied patients. 6- Conclusion should be condensed.	Dear reviewer , thank your for your valuable comments and revision. According to your recommendations: 1) Introduction is extended. 2) Exclusion criteria was given more detailed. "Congenital and secondary cataracts such as uveitic, traumatic, steroidal induced cataracts were excluded from the study. 3) OCT and FFA devices were given in the material methods. 4) More details were given about the laboratory investigation: "Congenital and secondary cataracts such as uveitic, traumatic, steroidal induced were excluded from the study. Before the surgery complete blood count, routine biochemistry parameters [fasting glucose, blood urea nitrogen, creatinine, AST, ALT, bilirubin, sodium, potassium , calcium , LDL(low density lipoprotein cholesterol), HDL(high density lipoprotein cholesterol) ,triglyceride] a, prothrombin time (PTT) and activated partial thromboplastin time (aPTT), anti-HIV, anti-HCV, HbsAg tests were performed." 5) We attempted to create a table as you requested but there is only age and gender data and it was given in the text. 6) Conclusion is condensed as a separate title.
<b>Optional/General</b> comments	Some typographical errors should be corrected	All the text revised for errors and corrected.

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	2018-05/50
