

SDI Review Form 1.6

Journal Name:	Ophthalmology Research: An International Journal
Manuscript Number:	Ms_OR_44569
Title of the Manuscript:	DEMOGRAPHIC CHARACTERISTICS AND COMORBIDITY PROFILES IN PATIENTS WITH SENILE CATARACT
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In abstract, results: one number is not right (pseudo-exfoliation syndrome (12 cases-23 10.1%)), please fix it. 'The cataracts were in the right eye for 56.5% of cases and in the left eye for 43.4% of the cases.' There were no bilateral cases? Line 79, 101, 112: the correct word is 'subcapsular'. It is a correct description about health status of the examined cataract population. It would be more interesting to find any difference of ratios of co-morbidities compared to a non-cataract population. Is there any significant difference? Do you have such data? Are there literature data according to this question?	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
