

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2014_PSIJ_14574
Title of the Manuscript:	Control gain and cost of pinning control for BA scale-free networks
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1、 The results are just the case at the level of the simulation results, so they may be proved by theoretical analysis; 2、 "a homogeneous stationary state" in line 51、 64 should be "a equilibrium state" or "a equilibrium point "; 3、 "As discussed in ref []" in line 76 miss the number of the reference.	We thank the referee for his/her time and effort in reviewing our manuscript. He/She raised some comments and suggestions pertaining to the theoretical analysis, the missing reference. We have fully addressed all the issues. Detailed response is presented as follows. Referee reports and answers: 1、 Answer: We thank the referee for this suggestion. In our paper, we just show our results by simulation analysis based on one Lemma. In the next step, we shall give some prove of our results by theoretical analysis. 2、 Answer: We have replaced "a homogeneous stationary state" in line 51 and 64 by "an equilibrium state". 3、 Answer: We have inserted our missing reference number [6-11]. We thank the referee for his/her valuable comments and suggestions, which greatly help us improving our manuscript to meet the high standard of PSIJ.
<u>Optional/General</u> comments
