SDI Review Form 1.6

**PART 1:** Review Comments

|                                            | Reviewer's comment                                                                                                                                                                                                                                   | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <b>The review is well organized showing the problem and the corresponding solutions in the time span. However, I recommend providing the statistical data with charts , histograms and curves to clarify it and visualize the data more clearly.</b> | Data were not collected on specific corrosion problems in order to compare problems of different locations. Only observations were made while visiting farms.                        |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                      |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                                                                                      |                                                                                                                                                                                      |
