

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	2015_PSIJ_21549
Title of the Manuscript:	Extending the Classic Conclusions in Lorentz Transformation for Super Natural Relativity
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

PART 1: Review Comments

<u>Minor</u> REVISION comments	Comments for the author: We recommend to the authors to: - to insert a "Conclusions" section, in which, again to emphasize what are the motivations of the author(s) and what are the possible application areas of the research.	Motivations and Conclusions are inserted at the beginning and the ending part. In nutshell, we are trying to explain why quantum entanglement speed exceeds light, and use it to develop some quantum devices for engineering usages.
