

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Physical Science International Journal
Manuscript Number:	2015_PSIJ_21549
Title of the Manuscript:	Extending the Classic Conclusions in Lorentz Transformation for Super Natural Relativity
Type of Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The author does not a clear definition for the new space (y,k). It is known that quantum entanglement is happened in the tradition space-time, not outside it. Up to now, there is no suggestion on the existence of the new space-time (y,k). If published, the title should be changed. It is not super relativity, for it is still in the framework of relativity, it is only relativity in super space-time.</p>
