

[SDI Review Form 1.6](#)

Journal Name:	<a href="#">Physical Science International Journal</a>
Manuscript Number:	2014_PSIJ_14982
Title of the Manuscript:	<b>A first order phase transition and self-organizing states in single-domain ferromagnet</b>
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>None</b>	
<b>Minor</b> REVISION comments	The English grammar should be reviewed all through the text before accepting it. For e.g. in the abstract section, "...does not depend of (on) the demagnetization..." , "...dynamic equilibrium state (states)..." . Also, spelling check must be done like crystal instead of crystall. In Introduction section, Zhabotinskiy should be Zhabotinsky. Also, check sections 2., 2.2 for grammatical correction.	
<b>Optional/General</b> comments	This paper clearly reports on the effect of magnetic field on the first order phase transition in a single domain ferromagnet with uniaxial anisotropy. The contents are well-written and have significance in the field of SOS ferromagnets.	

**Reviewer Details:**

Name:	<b>Sankar Moni Borah</b>
Department, University & Country	<b>Department of Applied Sciences, Gauhati University, Guwahati, India</b>
